

HOT Sheet

“Jewelry Cleaner”

- Jewelry cleaner is a synthetic cocaine.
- Street name is “Cosmic Blast.”
- It’s a powdery substance that can be ingested, snorted, or inserted rectally.
- It is said to cause a euphoric high, heightened alertness and sexual stimulation.
- Usually sells for \$25 for a small container
- Contains Naphyrone, a crystalline white powder that can be found under the brand name MRG-1 or Energy 1. Naphyrone is a stimulant drug that has similar effects to mephedrone.
- Can create changes throughout the body that last for days.
- Body temperature may reach as high as 108 degrees and cause permanent brain damage or death.
- Would not typically be picked up on a standard drug test
